ROCHESTER, N. Y.

THE COLUMBIAN RASPBERRY.

Descriptive Catalogue

FREE TO ALL.

SPRING OF 1902.

Established 1876.

26th Year.

SPECIAL

Collection of Small Fruits

ONE DOLLAR EACH.

Delivered at your Post Office or Express Office—Free.

Order by number and not by variety, and do not ask for any changes.

COLLECTION No. 1.

STRAWBERRIES.

For the benefit of our customers who are not familiar with the different varieties of Strawberries, we offer a collection of five varieties, which in our judgment are the best adapted for general garden culture.

12 Armstrong,	list price,	\$0.35
12 Echo,	" "	.35
12 McKinley,	" "	.25
12 Sample,	" "	.25
12 Brandywine,	" "	.25

\$1.45

5 Varieties, 60 Plants, for \$1.00.

Postage or Express prepaid.

COLLECTION No. 3.

BLACKBERRIES.

These varieties hard to beat; luscious. Extra high flavor, enormous size. Perfectly hardy.

6 Rathbun,	list price,	\$0.30
12 Erie,	" "	.35
12 Early Harvest,	" "	.35
6 Taylor,	" "	.18

\$1.18

4 Varieties, 36 Plants, for \$1.00.

Postage or Express prepaid.

COLLECTION No. 5.

GOOSEBERRIES.

Three of the best American Varieties.

6 Pearl,	list price,	\$0.38
6 Red Jacket,	" "	.50
6 Houghton,	" "	.33

\$1.21

3 Varieties, 18 Plants, for \$1.00.

COLLECTION No. 2.

RASPBERRIES.

Three dozen Raspberry plants are sufficient for family garden of medium size if the best varieties are selected.

12 Cuthbert,	list price,	\$0.25
12 Columbian,	" "	.40
6 Mills,	" "	.20
6 Loudon,	" "	.25

\$1.10

4 Varieties, 36 Plants, for \$1.00.

Postage or Express prepaid.

COLLECTION No. 4.

CURRANTS.

Just enough for family garden of the very best varieties.

6 Pomona,	list price,	\$0.50
3 Fay,	" "	.19
6 White Grape,	" "	.38
3 Lee's Prolific,	" "	.19

\$1.26

4 Varieties, 18 Plants, for \$1.00.

COLLECTION No. 6.

GRAPES.

Six of the best varieties for quality, yield and hardiness.

2 Campbell Early,	list price,	\$0.30
2 Brighton,	" "	.20
2 Concord,	" "	.16
2 Delaware,	" "	.20
2 Diamond,	" "	.20
2 Niagara,	" "	.20

\$1.26

6 Varieties, 12 Plants, for \$1.00.

Rochester, N. Y.

ALLEN L. WOOD,

PROPRIETOR.

TO MY PATRONS.

I take great pleasure in presenting to my many patrons throughout the country and the public generally my annual Catalogue of Small Fruit Plants.

It is my aim and intention to supply only the best stock at the lowest prices and all intending purchasers will find it to their advantage to give me an opportunity to furnish estimates upon their list of wants.

Fruit Growers Say **Wood's Plants**

ARE THE BEST IN THE WORLD

BECAUSE THEY YIELD SUPERIOR FRUIT.

It is not enough to know that plants grown from weak plants will also be weak, but the point is what will they produce.

This is a matter that is too seldom taken into consideration by the average buyer. Many of whom are more interested in hunting for the lowest in price. While progressive *fruit growers appreciate that "Blood will tell" in plants as well as in animals and realizing that their profits for a whole year or more depend upon the plants they use.* They avoid "cheap" plants as being poor economy; knowing that superior plants produce superior and more profitable fruit.

THE QUALITY OF MY PLANTS.

While I do not wish to appear self-conceited, yet in justice to me and my plants, and for the benefit of people who have never dealt with me. I claim to be the producer and distributor of the—**BEST PLANTS IN THE WORLD.** It is my business and my profession. I know that planters of fruit, buy them entirely on confidence. I realize that to lose a man's confidence is to lose his patronage. If you have never bought my plants, try them this year, and I will try and retain your confidence.

OUR NURSERIES.

I am the largest grower of Small Fruit Plants in the World. A complete assortment of Standard Varieties of Strawberries, Raspberries, Blackberries, Currants, Gooseberries, Grapes, etc.

MY PLANTS.

I grow all my own plants, they are grown on the best soil in the United States, which makes extra strong well rooted. We have to offer the largest and finest stock of plants we have ever grown.

MY PRICES

have been carefully adjusted and are as low as those offered by other firms, and in many instances our immense stock and complete equipment enables us to make lower rates than can be procured elsewhere on same grades.

PLANTS BY MAIL.

We can send plants by mail to any part of the country, and will guarantee them to reach my customers in good condition.

OUR GUARANTEE.

My plants are warranted true to name, and of grade represented. Should any stock not prove true to name, I will either refund the purchase money of same, or replace the stock true to name, free; but am not liable for further damages; and while I am exercising great care to prevent mixture, the above is to be the condition on which all stock is sold.

REMITTANCES

should be made by Post Office or Express Money Order, Bank Draft or Registered Letter.

HOW TO ORDER.

Always use the order sheet in Catalogue in making out your order. Be sure to fill out the order sheet whether you wish it sent by Mail, Express or Freight, always be sure you sign your name and give Post Office and State.

BY EXPRESS OR FREIGHT.

We deliver plants to Express or Railroad here free; and the purchaser pays all express or freight charges on receipt of goods. We pack all orders free. All Express Company's send their wagons to our packing houses once a day for our express. If plants are shipped C. O. D., one-fourth the amount of bill must be sent with order.

STRAWBERRIES.

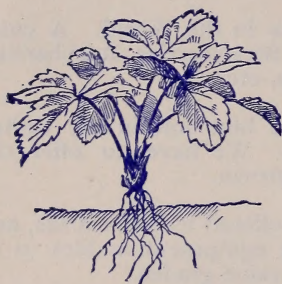

DIRECTIONS FOR CULTURE.

The Soil—The Strawberry may be successfully grown in any soil adapted to the growth of ordinary field or garden crops. The ground should be *well* prepared, and be *properly enriched* as for any garden crop. It is unnecessary to say that, if the land is wet, it must be thoroughly drained.

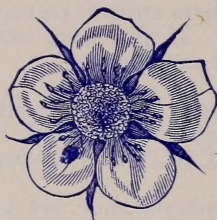

Culture in Hills—This is the best mode that can be adopted for the garden. To obtain fine, large, high-flavored fruit, pinch off the runners as fast as they appear, repeating the operation as often as may be necessary during the summer and early autumn. Every runner thus removed produces a new crown, and in the fall the plants will have formed large bushes or stools, on which the finest strawberries may be expected the following season. In the meantime, the ground among the plants should be kept clear of weeds, and frequently stirred with a hoe or fork.

Covering in Winter—Where the winters are severe, with little snow for protection, a slight covering of leaves or litter, or the branches of evergreens, will be of great service. This covering should not be placed over the plants until after the ground is frozen, usually from the middle of November till the first of December in this locality. Fatal errors are often made by putting on *too much* and *too early*. Care must also be taken to remove the covering in the spring, just as soon as the plants begin to grow.

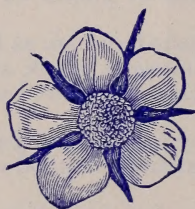

Mulching to Keep the Fruit Clean—Before the fruit begins to ripen, mulch the ground around the plants with *short* hay or straw, or grass mowings from the lawn, or anything of that sort. This will not only keep the fruit clean, but will prevent the ground from drying or baking, and thus lengthen the fruit season.

A CHEAP PLANT.

PERFECT.

IMPERFECT.

A GOOD PLANT.

We do not grow cheap strawberry plants, so do not ask us for cheap prices.

No. 18.

STATE OF NEW YORK

DEPARTMENT OF AGRICULTURE

CERTIFICATE OF INSPECTION OF NURSERY STOCK.

This is to Certify that the stock in the Nursery of Allen L. Wood, of Rochester, County of Monroe, State of New York, was duly examined in compliance with the provisions of Chapter 482 of the laws of 1898, and it was found to be apparently free in all respects from any contagious or infectious plant disease or diseases, or the San Jose scale, or other dangerously injurious insect pest or pests.

Dated, Albany, N. Y., July 15, 1901.

C. A. WIETING, Commissioner of Agriculture.

STRAWBERRIES.

STANDARD, WELL TRIED VARIETIES.

My Strawberries are all from New Bees and are Strong and Well-Rooted Plants.

Headquarters for first-class Strawberry plants. Roots straightened out and neatly tied up in bunches of twenty-five. I put in twenty-six for twenty-five in every bunch. Box and packing free.

NOTE—Those that are marked (Imp.) are Imperfect blossom and should be planted with (Per.) Perfect Blossom. Varieties every fourth plant, or better yet every fourth row.

ARMSTRONG—ONE-HALF NATURAL SIZE.

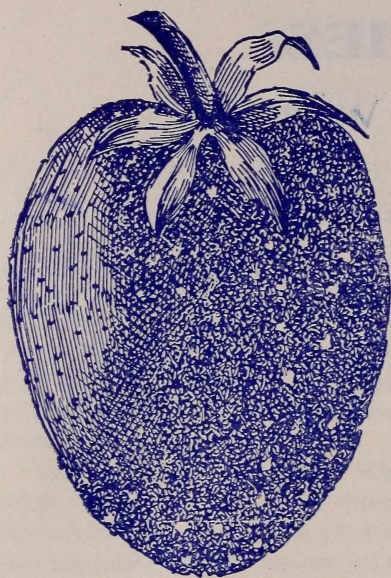

ARMSTRONG, Per. (A German-Seedling.) This variety came from Germany, about 10 years ago. It has been controlled by three or four German Fruit Growers. I have been watching this New German berry for the past 6 years. It is the largest and most productive berry grown. I have seen several crates of them, with ten to twelve berries to a quart box. They sold on the market for 10 to 15 cents per quart, while other berries sold for 4 to 6 cents per quart. This variety is from medium to late. It needs no fertilizing as it is a perfect blossom variety.

One of the German Fruit Growers, had one-Quarter of an acre this year. He picked at one picking 384 quarts; and the total amount of his crop this season was 1996 quarts. That would be about 8000 quarts per acre, at 12 cents per quart would be \$960 per acre. Does it pay to grow small berries. Price 35 cents per doz., post paid; **\$1 per 100.**

STRAWBERRIES—Continued.

PALMER'S VERY EARLY TWENTIETH CENTURY STRAWBERRY.

New Creation.

EXACT SIZE.

It is with intense satisfaction that we can at last offer a new Early Strawberry, which bids fair to add millions to the wealth of the States and Nation, and which will be hailed with delight by Fruit Growers, Dealers and Consumers, throughout the world.

For many years, Mr. Palmer, of Northern New York has labored to produce a large, early, productive, handsome, richly flavored Strawberry, with a high percentage of sugar. The Prize appeared four years ago.

It has been tested in every way sufficient to warrant its introduction, and we are upheld in our estimate of its great value by all Fruit Growers who have seen it in bearing, and even before the plants have been offered, numerous Growers have offered Mr. Palmer as high as \$10.00 for 12 Plants.

The Berry was originated by Mr. I. S. Palmer, of Northern New York, four years ago. It proves to be the largest and most beautiful of all early strawberries, perfect bloomer, plants strong and robust, produces two and four fruit stalks to each plant, all of them well filled with large berries.

Berries are large, rich, dark, glossy red, perfectly conical, with flesh Red all through. Each berry is a fountain of juice. The Cut shown is exact size. The largest, best shaped, and most beautiful Extra Early Berry ever known in productiveness. It will rank with Crescent, Parker Earl, Glen Mary, Haverland, and other great yielders here in Western New York. In 1901 it ripened fully 10 days ahead of Mitchel Early, Johnson Early, and Excelsior.

Order as early as possible, as stock is limited. Three plants set out Fall of 1901, will produce over 100 plants Fall 1902. When the young sets are firmly rooted early in September up and set out in a long row 14 inches apart; the second year you can have a fine malted bed from which you can sell more than \$25.00 worth of fruit. In case the Berry does not do as we claim for it, please write us; don't be afraid.

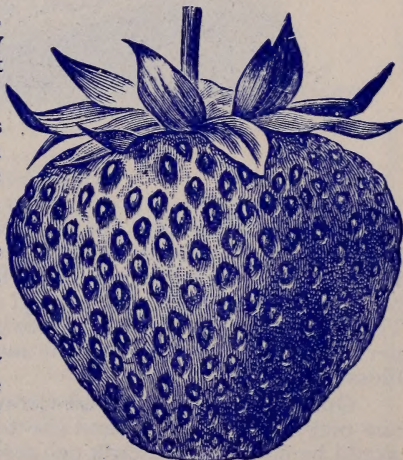

Price, 1 plant, 25c.; 3 plants, 50c.; 6 plants, 85c.; 12 plants \$1.50. These Plants will be sent by mail.

Bubach, Imp.—Fruit large and handsome, roundish conical, bright scarlet, moderately firm, of fair quality; plant a strong grower, with large, healthy foliage, very productive; succeeds on light or heavy soil. Desirable for home use and near-by market. This has proved to be one of the best Strawberries. Season early to medium. Price 25c. per doz., post paid; 50c. per 100, \$3 per 1000.

Beder Wood, Per.—Large, roundish, conical, bright scarlet, moderately firm, fair quality; a very heavy bearer, one of the best, early. Price 25c. per doz., post paid; 50c. per 100, \$3 per 1000.

Brandywine, Per.—This fine new Strawberry has a perfect blossom and its fruit colors all over. Its season is rather late. It has a large green calyx that adds to the attractiveness of the fruit. The berries are very large, nearly always of regular, conical form; color, bright glossy red; flesh firm and very excellent quality. One of the most promising of the newer berries. Price, 25c. per doz., post paid; 50c. per 100, \$3 per 1000.

Crescent, Imp.—This is a very prolific berry, bearing profusely even under neglect. In growth it is very vigorous and hardy, and produces better if the vines are not allowed to mat. They should be thinned, even if the hoe has to be used. Fruit colors on all sides at once. A great cropper, early. Price 25c. per doz., post paid; 50c. per 100, \$3 per 1000.

BEDER WOOD.

STRAWBERRIES—Continued.

Clyde, Per.—This new berry seems to be gaining great favor wherever known. It originated with Dr. J. Stayman several years ago. It is a seedling of Cyclone, and Cyclone is a cross between Crescent and Cumberland. The Clyde has Crescent blood in it, and no doubt gets its immense productiveness from that variety. With us it is as large as Bubach, nearly or quite a week earlier and very much firmer. The plant is very vigorous and healthy, there being no trace of disease about it. Price 25c. per doz., post paid; 50c. per 100, **\$3 per 1000.**

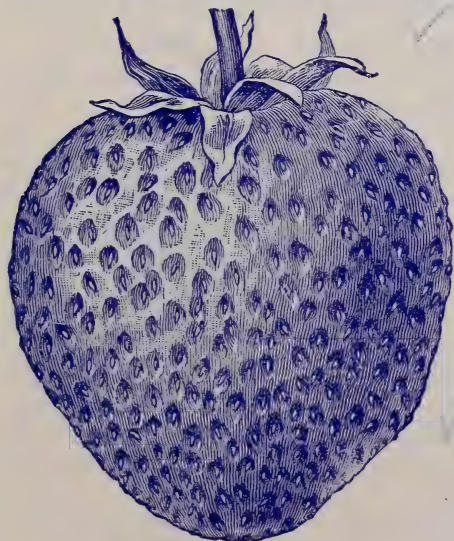

Champion of England, Per.—This berry was brought from England by an English gardener some years ago, and has been kept and grown by him exclusively for market. He has been able to lead all other growers in sale and price, whatever varieties they might have, getting nearly double the price. The plant is one of the strongest grown, very large and healthy, medium early. Price 25c. per doz., 50c. per 100, **\$3 per 1000.**

Echo, Per.—Introduced by us. This great table berry has the highest and richest flavor of all Strawberries. It has the natural Wild Strawberry flavor. It is very productive, fruit large. This berry is most delicious for family use, it possesses a rich flavor quite unknown among native varieties. We never had enough plants to satisfy our customers for the past two years. We would advise our patrons to order early. Price 35c. per doz., post paid; **\$1 per 100.**

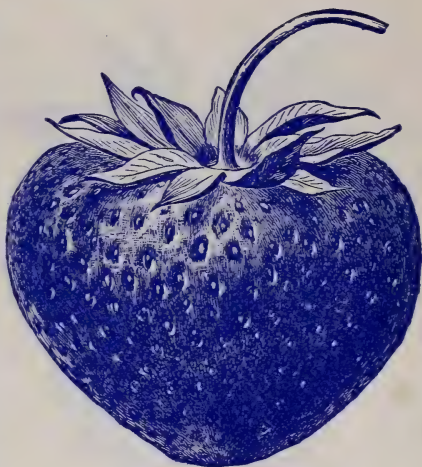

Gandy, Per.—Has held its place in public favor on account of large size, fine quality and very late ripening. Of late years it is becoming more productive, yielding even 4000 to 6000 quarts per acre on heavy, moist loam, or mucky lands. Ripening late, it sells at high prices, and is counted by many growers as their most profitable berry, so that every year the demand for Gandy plants increases. Price 25c. per doz., post paid; 50c. per 100, **\$3 per 1000.**

Glen Mary, Imp.—Very vigorous, enormously productive of large to very large, bright, deep red berries. Yellow seeds on surface; flesh very firm. Light red clear to the center; sweet, rich and high flavored; a decidedly good berry in point of plant, yield, great size, fine form, bright color, firmness and good quality. Price 25c. per doz., post paid; 50c. per 100, **\$3 per 1000.**

Greenville, Imp.—In some sections superseded Bubach, and a favorite variety nearly everywhere. Very productive of uniform size, roundish berries of excellent quality, firm and good shippers, thrifty grower, dark green, healthy foliage. Price 25c. per doz., post paid; 50c. per 100, **\$3 per 1000.**

SEAFORD.

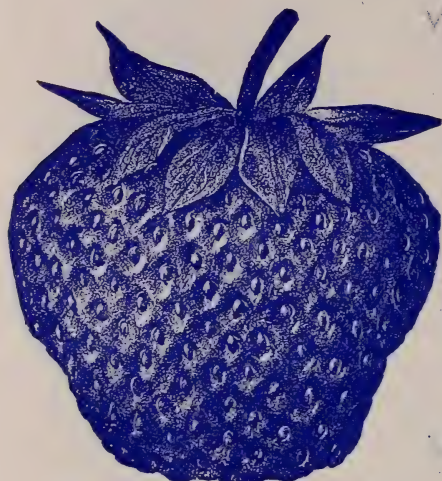

CLYDE.

Haverland, Imp.—Large, long, light red; moderately firm, medium quality, ripens all over. Very vigorous and healthy, and a great yielder; a valuable variety for home use or near market, early. Price 25c. per doz., post paid; 50c. per 100, **\$3 per 1000.**

Hunn, Per.—Remarkable for its extreme lateness, ripening considerably later than Gandy and Michigan. The fruit is large, dark crimson, and attractive, of uniform size and shape, exceedingly firm, and of excellent quality. It is a splendid shipper and stands up well. For the home garden it will prove one of the best; its superior quality commending it for table and its solid flesh making it unsurpassed for canning. Price 25c. per doz., post paid; 50c. per 100, **\$3 per 1000.**

Jessie, per.—A large, handsome, dark red berry; in some localities one of the best market sorts. Strongly staminate: a fine fertilizer for such varieties as Bubachs. Vigorous, healthy plant. Midseason. Price 25c. per doz., post paid; 50c. per 100, **\$3 per 1000.**

STRAWBERRIES—Continued.

NICK OHMER.

ish, inclining to conical, but sometimes flattened or coxcombed; color crimson; flesh firm and quality very good. The plant is vigorous, healthy, and a great yielder. Season medium late. We can confidently recommend it for garden and market culture.

A gentleman wrote to us from Kentucky recently as follows: "In looking over the Strawberries at the Kentucky Experiment Station, June 1, 1899, I find to my judgment the McKinley the best berry on the ground. Their size, color, and quality were very superior, and there were a good many on the vines." Price 25c. per doz., post paid; 50c. per 100, **\$3 per 1000.**

Nick Ohmer, Per.—For market, for home use, or for exhibition, this is probably the greatest berry ever offered. It is certainly the most desirable berry that has come under my observation. It is my candid opinion that all who grow the Nick Ohmer will be astonished at its healthy vigorous growth and great productiveness. The fruit will be a surprise to all that see it, being of mammoth size, beautiful form and color, and excellent quality. Price 25c. per doz., post paid; 50c. per 100, **\$3 per 1000.**

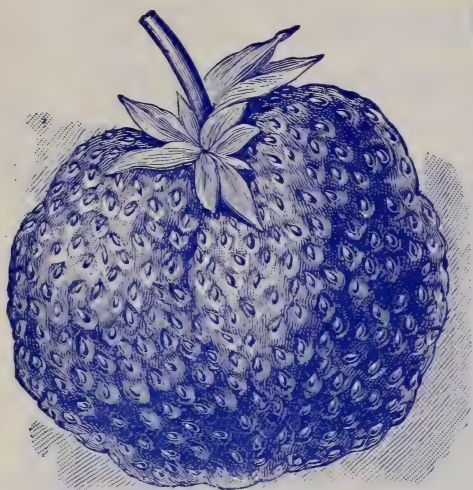

Rough Rider, Per.—Originated in Oswego county, New York, by Charles Learned, a leading grower of that famous strawberry locality. A seedling of Eureka fertilized by Gandy. Prolific runners like Eureka, the individual plants closely resembling the Gandy in leaf and stalk. Enormously productive, hardy and free from disease. Berries very large; roundish but elongated, mostly shape of illustration, but some flattened and pointed. Color dark red like Gandy. The latest and firmest strawberry in existence; was shipped to New York and Boston in 1900 and sold for nearly double most varieties. Of seventy crates sold in Boston, July 1st, three brought twenty cents per quart and the balance sixteen to eighteen cents wholesale. Although the past season was earlier than usual, good pickings were made till near August 1st. It was shipped without ice July 12th, 350 miles in an ordinary express car and sold for twelve cents per quart. Its blossom is perfect. Price 50c. per doz., post paid; \$1 per 100, **\$8 per 1000.**

Ruby, Per.—Strong, healthy plants; large staminate blossom; uniformly productive; fruit of large size; dark red color clear through; firm enough to ship well; a fine keeper after being picked; and of the highest quality. Price 25c. per doz., post paid; 50c. per 100, **\$3 per 1000.**

Sharpless, Per.—This old, well known, big berry, in many localities is yet a great favorite, strong and vigorous grower, very large, productive. Price 25c. per doz., post paid; 50c. per 100, **\$3 per 1000.**

RUBY.

STRAWBERRIES—Continued.**ROUGH RIDER.**

core. Very firm for a large berry ; strong, vigorous and healthy foliage.

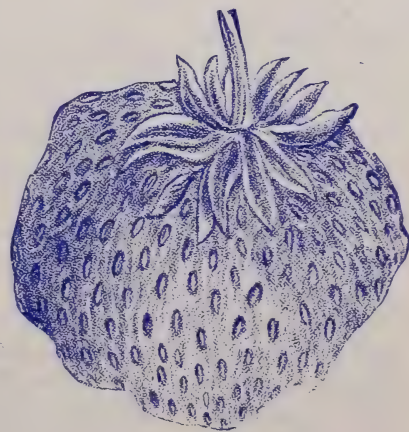

The originator says : "Sample is of large size and fine quality, quite firm, and continues a long time in fruit. The berries are large to the last. For the market-men it is the best Strawberry ever grown. I have nothing in my grounds that will begin to fruit like it. It will yield as many berries as the Haverland, and will average as large as Bubach." Colors all over at once. There is not a weak spot in it. Foliage perfect, fruit perfect. Needs no petting. Price 25c. per doz., post paid ; 50c. per 100, **\$3 per 1000.**

Star, Per.—Very large berry of Sharpless type. The plant is a vigorous and strong grower, with healthy foliage, deep rooted and a good plant maker. Season of ripening is second early, quality of the best flavor. It matures its berries in a dry season, possessing the greatest drought resisting qualities. This berry the past season with me bore a large crop of fine berries. My plants are as fine as grow. Price 25c. per doz., post paid ; 50c. per 100, **\$3 per 1000.**

Trimble, Imp.—A large late berry, nearly as late as Gandy. Plant a vigorous grower. Price 25c. per doz., post paid ; 50c. per 100, **\$3 per 1000.**

Wm. Belt, Per.—A well tested variety that is giving remarkable satisfaction as a large, handsome, productive berry for market or home use. Vigorous, thrifty, heavy plant, producing large crops under good common matted row culture. Berries extra large, conical, quite uniform in shape ; brilliant, glossy red ; ripens all over without green tips ; good quality ; carries well to market and brings highest price. Price 25c. per doz., post paid ; 50c. per 100, **\$3 per 1000.**

Wilson, Per.—Too well known to need description. The most popular canner and shipping berry known. More largely planted than any other variety in this state. Price 25c. per doz., post paid ; 50c. per 100, **\$3 per 1000.**

**SAMPLE.**

☛Add 20 cents per 100 if you want them sent by mail,
50 plants at 100 rates, 500 at 1000 rates.

RED RASPBERRIES.

STANDARD VARIETIES.

Plants are extra strong. Specially adapted for Fruit Growers.

Cuthbert.—Leading late market variety all over the country. A remarkably strong hardy variety; stands the northern winters and southern summers equal to any. Berries

CUTHBERT.

very large, measuring three inches around; conical, rich crimson, very handsome, and so firm they can be shipped hundreds of miles by rail in good condition; flavor is sweet, rich and luscious.

Price 5c. each, 25c. per doz., \$1 per 100, \$7 per 1000.

Columbian.—This great berry, believed to be a cross between Cuthbert and Gregg, and is superior and larger than Shaffer's Colossal, which it resembles in type and color, and can recommend it as worthy of a trial. For canning purposes, it is undoubtedly the very best Raspberry in cultivation, yielding 8000 quarts per acre. Unlike the Shaffer, it does not go to pieces in the process, and it does not shrink.

The Rural New-Yorker says: "The berry is of the same type as the Shaffer; that is, it propagates from the tips, does not sucker, and is similar in color. In shape it is longer than the Shaffer, more solid, and adheres much more firmly to the stem. In quality it is an improvement on the Shaffer, being sweeter when ripe and of high flavor. These comparisons are made with the Shaffer because we can thus best illustrate, and because of the fact that the Shaffer is to-day probably the most productive Raspberry under cultivation. In general appearance both are much alike in foliage and cane. On close examination marked differences are seen. The canes of the Columbian are more woody, its thorns are a bright, light green in color, while those of the Shaffer have more or less of a purple tinge."

Price 10c. each, 40c. per doz., \$1.50 per 100, \$10 per 1000.

RED RASPBERRIES—Continued.

Schaffer.—This is the best known of the purple raspberries. It is very vigorous; large and productive. It picks easier than Columbian, but is not so large or firm. Price 10c. each, 40c. per doz., \$1.50 per 100, \$10 per 1000.

Loudon.—A red midseason berry. Its points of superiority are vigor of growth, large fruit, beautiful rich, dark crimson color, good quality and marvelous productiveness and hardiness, enduring winters without protection and without injury to the very tips. It stands shipping the best of any variety, and will remain on bushes the longest without injury. Price 10c. each, 40c. per doz., \$1.50 per 100.

Marlboro.—Large size, light crimson color; good quality and firm. Vigorous and productive. One of the best, well-tested, large early berries for the North. Price 5c. each, 30c. per doz., \$1.25 per 100, \$8 per 1000.

Miller's Red.—Bright red color, which it holds after picking. Stout, healthy, vigorous grower; canes not as tall as Cuthbert; well adapted to carrying their immense loads of berries. Berries large; hold their size to end of season; round, bright red, core small; do not crumble; firmest and best shipper; rich fruity flavor. Commences to ripen with the earliest. We can highly recommend this for either home or market. Price 5c. each, 30c. per doz., \$1.25 per 100, \$8 per 1000.

YELLOW RASPBERRIES.

Golden Queen.—This variety is almost identical with Cuthbert, except in color. Fruit large, productive; quality first-class. It is beyond doubt the finest and most profitable yellow berry grown. Price 5c. each, 40c. per doz., \$1.50 per 100.

NOTE.—If you want them sent by mail, add 12c. per doz., 40c. per 50.
6 at dozen rates, 50 at 100 rates, 500 at 1000 rates.

The Blackberry plants came through in fine shape. They are the best plants that I have ever seen and I have seen lots of Blackberry plants. There were some of our neighbors present when I opened the box and they said they were the best plants they had ever seen.

JOHN MORRIS, Golden, Col.

Shipment of Gooseberries, Currants and Grape Vines I received in excellent shape and the grade all O. K.

J. H. BRADLEY, III.

I received the plants to-day and I thank you very much for the way they were packed and also the promptness with which my order was filled. If I need any more plants I shall surely send to you for them.

ALBERT WEBER, N. J.

Enclosed find draft for amount due. Your stock received in good condition and open to please.

Northeastern Iowa Horticultural Society.

G. A. IVINS, Iowa.

I will write to you about the plants I received from you this spring, and will say they were very good, fresh stock, well packed and gave good satisfaction to my customers.

S. H. EATON, Me.

I have received from you the small fruit plants recently ordered, and am very much pleased with them; they are certainly very fine plants.

H. A. HAYWARD, N. C.

I received the plants in good condition and am well pleased with them. Thanking you for your promptness.

F. J. CARL, Pa.

Enclosed find draft. Stock was fine and delivered in good shape.

L. H. SMITH, Mo.

Stock received and in good condition; just as fresh as when dug. I must say they are the largest and best for their age, and the money or price paid, grown in the world. It is a pleasure to do business with an honest man, and especially one who tries to live and let live. I thank you for extra promptness.

D. W. GILLETTE, Pa.

Box of plants received all right, everything all O. K. If the stock you sent me is a fair sample of what you grow I guess we may do considerable business together in the future.

HITCHCOCK'S NURSERY, Mass.

Plants arrived in fine condition, all O. K. Please accept thanks also for extras.

C. E. WOODRUFF, Ill.

Enclosed please find draft in full. We are pleased with your stock.

J. N. BARTELS & CO., Colo.

I herewith enclose draft for 500 Pearl Gooseberries. They were very satisfactory.

U. L. MOORE, Nebr.

I received the plants in good condition and they were fine ones. Thanking you for your promptness.

F. J. CARL, Pa.

Stock received in first-class condition. Have bought or seen none better. Thanks for treating us right. Please find enclosed draft.

PECK & REMINGTON, Iowa.

Raspberries, Currants, Gooseberries and Grape Vines came in good condition. They are all making a fine growth. I expect to send another order this fall. Be sure and send me your price list.

CHARLES H. SCOTT, Iowa.

BLACK RASPBERRIES.

Our Plants are Extra Strong and Well Rooted—None Better.

MILLS.

MILLS.—This new Black Raspberry originated in Western New York where they grow thousands of Black Raspberries for evaporating purposes. We received a few plants of this new berry several years ago until now we have 11,000 fruiting plants. It has been almost impossible to buy any plants of the Mills from any of the fruit growers as they had all their plants sold a year ahead, that is, what they had left after they got through planting. We consider it the best Black Raspberry that we have ever grown, it is extremely large, perfectly hardy, free from blight or rust, large as the Cumberland, very firm and with a bloom somewhat like the Gregg. It has been the most productive of all the Black Raspberries we have tried. It brings the highest price of any in the market. It has given such immense satisfaction to the fruit growers in Western New York that it is almost impossible to buy any plants of any fruit growers that have it, but we have not attached a big price to the plants and will pay a handsome price for any new Black Raspberry that will beat it.

Price 10c. each, 40c. per doz., \$1.50 per 100, \$10 per 1000.

BLACK RASPBERRIES—Continued.

Cumberland.—This new raspberry originated in Pennsylvania and is supposed to be a seedling of the Gregg with a dash of blackberry blood in it. It is claimed by its friends to be the largest blackcap grown, running nearly one inch in diameter. *The Rural New Yorker* speaks of it in the highest terms. B. F. Foster, a large grower, of Wayne County, writes as follows: "I had five acres of it fruiting last summer and am delighted with it. I had Ohio and several other varieties growing side by side with it and under exactly the same conditions. The Cumberland fully doubled the yield of Ohio, and is far ahead of all other varieties on my grounds. The fruit is so large and so abundant upon it that it can be easily picked for a third less than other sorts, and it is of such a superior appearance as to command usually a little above the market price of other varieties. Price 10c. each, 60c. per doz., \$2.50 per 100, \$20 per 1000.

Gregg.—Very best of blackcaps, very large, wants good soil to produce best results, fruit very fine and covered with bloom. It is the leading market variety all over the country, best for evaporating of any variety, as it is said to give most pounds to the bushel of any kind. Price 5c. each, 25c. per doz., \$1 per 100, \$6 per 1000.

Hillborn.—Closely follows Kansas, and resembles it in plant vigor, hardiness, productiveness, size and color of berry but ripens a little later and has a longer fruiting season. Price 5c. each, 25c. per doz., \$1 per 100, \$6 per 1000.

Kansas.—This most rampant grower of all the blackcaps is everywhere considered the one best blackcap of midseason. It is the heaviest grower of all, branches freely, is healthy, hardy; productive of very large, glossy, jet black berries, of excellent quality for home use or market. Price 5c. each, 25c. per doz., \$1 per 100, \$7 per 1000.

KANSAS RASPBERRY.

Ohio.—One of the best market varieties. Grown by the thousand for evaporating purposes, and for use in fresh state. Canes very vigorous, hardy and productive. Price 5c. each, 25c. per doz., \$1 per 100, \$6 per 1000.

Palmer.—Has been tested from the Atlantic to the Pacific, receiving the highest commendation from all sources, and is fully established as the best and most productive early blackcap yet introduced. It is supposed to be a cross of Souhegan and Gregg. The vigor and healthy appearance of the bush with its wonderful productiveness and its early ripening, have attracted much attention. Since Palmer made its appearance it has been fruited with such popular varieties as Doolittle, Souhegan, Gregg and Ohio, and surpasses them by far. Price 5c. each, 25c. per doz., \$1 per 100, \$7 per 1000.

Souhegan, or Tyler.—Very early. Canes vigorous and hardy; wonderfully productive. Fruit of good size firm, sweet and pleasant. Price 5c. each, 25c. per doz., \$1 per 100, \$6 per 1000.

NOTE.—If you wish them sent by mail, add 12 cents per dozen, 40 cents per 50. Six at dozen rates, 50 at 100 rates, 500 at 1000 rates.

BLACKBERRIES.

Roots Cutting and Strong Sucker Plants with Cross Roots. Fine.

OHMER.

in the home garden, where it succeeds. Price 5c. each, 35c. per doz., \$1.50 per 100, \$10 per 1000.

Erie.—We have fruited the Erie for a number of years, and we find it one of the best, and its hardiness all that was ever claimed for it. It is one of the strongest growers, and will produce large crops on what would be called poor soil; its fruit is of the largest type, being very uniform in size, and perfect. Price 5c. each, 35c. per doz., \$1.50 per 100, \$10 per 1000.

Lucretia.—One of the low-growing, trailing blackberries; in size and quality it equals any of the tall-growing sorts. The plant is perfectly hardy, healthy and remarkably productive, with large, showy flowers. The fruit, which ripens early, is often 1 and 1½ inches long, by 1 inch in diameter, soft, sweet and luscious throughout, with no hard core; ripe before late raspberries are gone. Should be mulched to keep berries from ground. We can highly recommend this variety. Price 5c. each, 30c. per doz., \$1.25 per 100, \$8 per 1000.

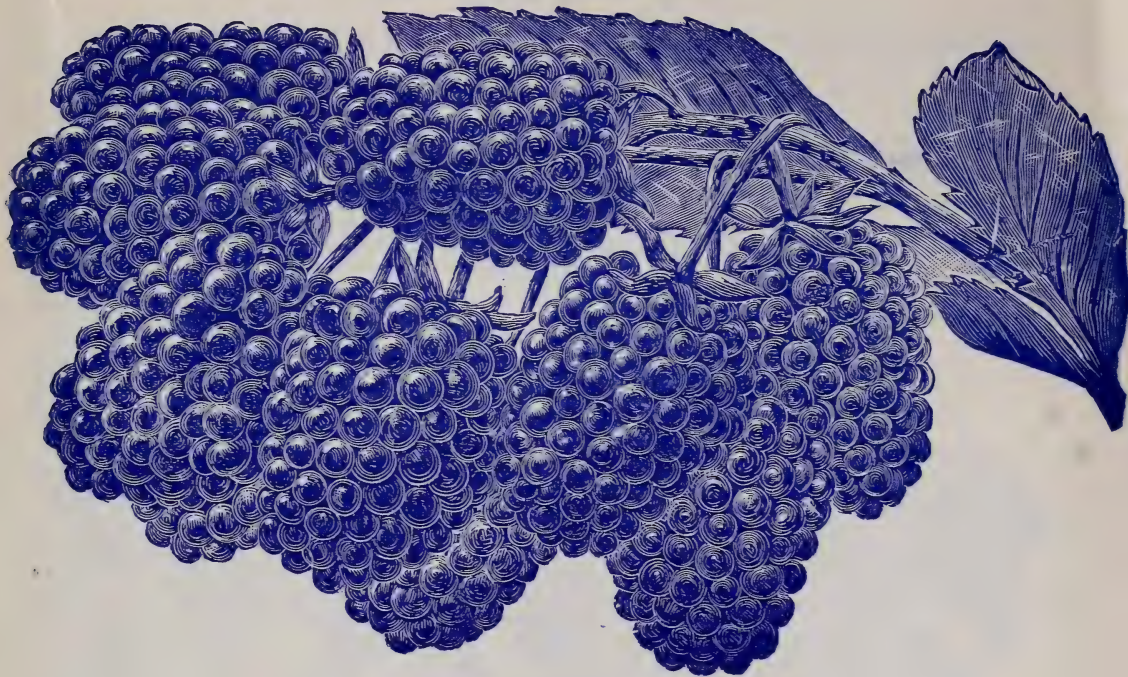

Rathbun.—The largest of all blackberries. Plants hardy, vigorous, and a great bearer. Fruit very large, black and lustrous, and of highest quality. Market growers will fully appreciate the advantage a large berry has over a small one; the gain to him is two-fold—it costs less to pick the fruit, and from its superior appearance it brings more in market. Price 10c. each, 60c. per doz., \$3 per 100.

What L. H. Bailey, Professor of Horticulture, says:—The Rathbun Blackberry is now in fruit and we are very much pleased with it. It is midway between a blackberry and a dewberry in habit as also in earliness. The berries are exceedingly large, glossy, jet black, and of good quality. I certainly think that there is a future for it.

Snyder.—Very popular for the north and northwest on account of its extreme hardiness; wonderfully productive, size medium, fruit juicy and sweet without the hard core of many sorts; canes remarkably strong and thrifty. More largely planted than any other of the ironclad varieties. We have a heavy demand for them every year. Season early. Price 5c. each, 35c. per doz., \$1.50 per 100, \$10 per 1000.

Ohmer.—Very large, hardy, healthy; ripening after raspberries are gone, and lasting till late in August, when prices are up. Excellent quality, firm; no core. Five points will recommend this berry: Hardy, late, large, productive, and of the finest flavor; also brings 50c. to \$1.00 more a crate than Snyder or Taylor. As large as the largest; as hardy as any good berry; very productive; strong grower; finest quality, and late. Price 5c. each, 50c. per doz., \$2 per 100.

Early Harvest.—The earliest Blackberry, consequently one of the most valuable, were it hardy. Here it has proven hardy. Ripening in July, with its productiveness, it is eminently profitable for market whilst its earliness and good quality make it a special favorite

BLACKBERRIES—Continued.

LUCRETIA.

Taylor.—Nearly as hardy as Snyder. Berries larger and of fine quality, sweet and juicy. Canes of strong growth, greenish yellow, of especial value for planting at the north, suited to low, moist ground. Price 5c. each, 35c. per doz., \$1.50 per 100, **\$10 per 1000.**

Wilson.—One of the largest and most productive of the early varieties. Produces an abundance of sweet, glossy black fruit, which holds well for days after picking. Its firmness makes it one of the best for shipping purposes. Price 5c. each, 35c. per doz., \$1.50 per 100, **\$10 per 1000.**

Agawam.—Of medium size, jet black, sweet, melting to the core. Plants hardy and prolific. A fine early variety. Price 5c. each, 35c. per doz., \$1.50 per 100, **\$10 per 1000.**

Minnewaski.—One of the largest and most productive; has been on trial for several years and receives the most favorable reports from nearly all sections. Fruit glossy black, tender, juicy, sweet, with fine aromatic flavor. Remarkably productive and hardy. One of the best for both market and home garden. Ripens early. Price 5c. each, 50c. per doz., **\$2 per 100.**

Eldorado.—It is as hardy as Snyder, is a larger berry and of best quality. Has been cultivated twelve years and never winter killed. H. E. Van Deman, National Pomologist, says: "Never have I tasted anything equal to Eldorado." I have fruited it and find it hardy and fine. We bought our first stock of the originator. Price 5c. each, 50c. per doz., **\$2 per 100.**

Austin's Dewberry.—This makes a stronger growth than Lucretia and its canes are nearly twice as large but has the same trailing habits as the Lucretia. The fruit is about same size as Lucretia but of different shape, being shorter and thicker. Both Lucretia and Austin Dewberries are as large as the Wilson Blackberry. The Lucretia is three or four days earlier than Early Harvest Blackberry, and are two-thirds gone when Wilson commences to ripen, and Austin's is nearly or quite a week ahead of Lucretia, but not as good a shipper, being softer; but for a near market where earliness counts for more than firmness, Austin's will fill the bill. Price 5c. each, 35c. per doz., \$1.50 per 100, **\$10 per 1000.**

NOTE—If you want them sent by mail, add 12 cents per dozen, 40 cents per 50.
6 at dozen rates, 50 at 100 rates, 500 at 1,000.

CURRENTS.

**SUPERIOR QUALITY AND UNIFORM GRADE, GUARANTEED
THE BEST IN THE WORLD.**

Largest grower of Currants and Gooseberries of any Nurseryman in the world. They are choice plants. They are grown on soil that is specially adapted for Currants and Gooseberries.

There is not over one-fifth as many Currant and Gooseberry plants in the country as there has been for the past three years. Order early so you will not get left. They will be very scarce before planting time.

POMONA.—Beyond comparison in productiveness and fine quality with any of the older sorts, and from present indications destined to supersede all other Red Currants. Its yield of fruit is something wonderful. From $6\frac{1}{2}$ acres of Pomona Currants has been sold at wholesale in three consecutive years, fruit amounting to \$9,000.00, or an average of over \$461.00 yearly per acre. What Currant is there that will make as good a showing as this? The Pomona is a vigorous and robust grower, healthy, hardy and an early bearer; foliage abundant and remains on the bush much later than other sorts. The

fruit is very beautiful in appearance, of a clear, bright translucent red, bunches large and full, the size of the berry very near as large as the Fay. It is of remarkable fine quality, sweet and mild, and less acid than any we know of, with very few seeds, and these are small. The

fruit is so bright colored and handsome that it always attracts buyers at market, and it not only hangs on the bush a long time after ripe, but will also keep in good condition a long time after being picked. It bears regularly year after year with the same unfailing abundance, and its immense yield, attractive appearance and fine quality make it the most profitable and desirable of all currants. Price 10c. each, 85c. per doz., \$3.50 per 100.

What E. B. Lewis, of Lockport, N. Y., says:—From the 200 plants of Pomona I planted two years ago, I picked this season 1025 pounds of Currants. If I had land enough I would plant out five acres of strong two-year plants.

WAUKEE, IOWA, June 23, 1899.

Gentlemen:—Out of over twenty sorts that we have fruited now, the Pomona is the most abundant bearer and has the largest fruit and best color of any Currant on the place.

Yours truly, J. WRAGG & SONS CO.

CURRANTS—Continued.

Fay's Prolific.—Perhaps no other currant has received so much praise as has Fay. It is very large, and always sells well and at high price. Yet the Fay is not universally popular, as it does not seem to do well in all parts; in fact, some rather condemn it. We consider it does better on heavy clay soil, well manured and thoroughly cultivated, than on lighter soil. Strong, two years. Price 10c. each, 75c. per doz., \$3 per 100.

Lee's Prolific.—(Black.) Considered one of the best black currants. The fruit is large and produces abundantly. Never attacked by insects of any kind. Valuable for making jellies, jam and wine. Strong, two years. Price, 10c. each, 75c. per doz., \$3 per 100.

Cherry.—Strong grower, fruit very large, sometimes measuring one-half inch in diameter. Should have good soil and thorough cultivation. Strong, two years. Price 10c. each, 65c. per doz., \$2.50 per 100.

Red Cross.—Jacob Moore, the originator, says:—"Red Cross clusters are long and have well necked berries, double the size of Victoria, and far superior in quality to Cherry or Victoria. Nothing will compare in quality with Red Cross but White Dutch, which is too small. Red Cross was first fruited in 1889. I have seen the fruit growing in such masses as to hide the upper branches from view. It is later than Cherry; the plant makes larger growth than Cherry, and yields two or three times as much fruit. I recommend it with confidence. I consider Red Cross one of the best of the new Currants." Strong, two years. Price 10c. each, 85c. per doz., \$3.50 per 100.

La Versailles.—Very large, red; bunch long, of great beauty and excellent quality; one of the finest and best. Should be in every collection. Strong, two years. Price 10c. each, 65c. per doz., \$2.50 per 100.

Prince Albert.—A large, light red berry; long bunch. Bush an erect grower, with heavy foliage. Very productive. Ripens late. Strong, two years. Price 10c. each, 65c. per doz., \$2.50 per 100.

White Grape.—The largest and most productive white currant grown. Flavor sweet and very fine for the table. Not desirable for the general markets, because people don't seem to take to white fruits. The best table currant. Strong, two years. Price 10c. each, 75c. per doz., \$3 per 100.

Victoria.—Large; bunches long; berries bright red color, of excellent quality; bush good grower; extremely hardy. Perhaps this is the best of the older varieties of currants. Strong, two years. Price 10c. each, 75c. per doz., \$3 per 100.

Red Dutch.—Berries medium; profuse bearer; bush very strong grower and comparatively free from borers. Strong, two years. Price 10c. each, 65c. per doz., \$2.50 per 100.

North Star.—The strongest grower among the red varieties; should be given plenty of room and ground kept well enriched; bunches average four inches in length and are freely produced. Combines extreme hardiness, vigorous growth, extra quality and great productiveness. Strong, two years. Price 10c. each, 65c. per doz., \$2.50 per 100.

Tree Currant.—Price 15c. each, \$1 per doz., by Express or Freight.

NOTE.—If you wish them by mail, add 12c. per dozen, 40c. per 50.

6 at dozen rates, 50 at 100 rates, 500 at 1000.

GOOSEBERRIES.

EXTRA FINE PLANTS. NONE BETTER.

REMEMBER Now is the time to order if you want first-class stock. My soil is especially adapted for growing extra strong gooseberries.

PHOTOGRAPH OF A BRANCH TWO YEARS OLD.

PEARL.—THE MOST PROLIFIC GOOSEBERRY KNOWN.

What an Old English Gardener says:

SMITH FALLS, ONTARIO.

The Pearl is my favorite. It is a splendid kind, hard to beat, taking it all through. Some of the bushes that have been planted one year, I picked three quarts from this season. It has not shown any signs of mildew, and such a robust growth I never saw in the old country. Some of the new wood is over two feet long and nearly half an inch thick. The White Smith and Downing mildewed badly this season.

THOMAS HAGUE.

GOOSEBERRIES—Continued.

Pearl.—This is the best American variety—a cross between Houghton and one of the large English varieties. It is very hardy, entirely free from mildew, superior in size and quality and more productive than the Downing, and is likely to supersede this standard sort. From the many flattering testimonials of this new berry from most of the leading horticulturists, we have pleasure in recommending this variety for small or extensive planting as one of the best berries. Price 10c. each, 75c. per doz., **\$3 per 100.**

Downing.—One of the oldest and best known sorts. Large, handsome; pale green, of splendid quality for both cooking and table use; bush a vigorous grower and usually free from mildew. One of the best for home use and market. Price 10c. each, 75c. per doz., **\$3 per 100.**

Houghton.—A very productive, hardy berry, of medium size, and for general purposes one of the best. Price 8c. each, 65c. per doz., **\$2.50 per 100.**

Red Jacket.—An American seedling of large size; smooth, prolific and hardy, of best quality. Has been well tested over a wide extent of territory by the side of all the leading varieties. A wonderful cropper with bright, clean, healthy foliage. Price 10c. each, \$1.00 per doz., **\$7 per 100.**

Industry.—Berries of largest size, excellent flavor; pleasant and rich; dark red color when fully ripe. Strong, upright grower; less subject to mildew than most of the foreign varieties. The best known and most successful English sort. Price 15c. each, \$1.50 per doz., **\$10 per 100.**

Tree Gooseberry.—Upright growth; berries large, oftentimes measuring one and one-half inches in diameter; of excellent flavor; color dark red; of English birth. Price 25c. each, **\$2 per doz.**

NOTE.—If you wish them sent by mail, add 12 cents per dozen, 40 cents per 50.

Six at dozen rates, 50 at 100 rates, 500 at 1000 rates.

Out of the 2000 Currants (Fays) I got from you I only lost 8 plants. I shall want at least 1000 more this fall. Can I have them at the same price? GEO. J. DENIG, Laporte, Colo.

The 100 Pearl Gooseberries came in fine shape and certainly No. 1 in every respect. Many thanks. Will remember you again.

S. T. KENYON, Ohio.

Orders for Pearl Gooseberry received. Thanks for the extra number. All good roots and in very good condition. Our State Authorities have recommended the Pearl Gooseberry the best all around gooseberry.

S. E. EVANS, Cal.

The Gooseberries, Blackberries, and Currants you sent to Pajac Point Farm, Rhode Island, arrived promptly and in good condition. It was a surprise and a pleasure to find such well-rooted plants and so carefully dug. Your motto is, evidently, "Room at the Top." Please accept our thanks.

W. B. WELLING,
Wall Street, New York.

The Gooseberries and Currants came in good condition. Hope they will prove a success here in our valley. E. W. DOWNER & SON, Col.

The 21,500 Gooseberry and Currants bought of you this spring are all doing finely; not over 200 lost in the entire lot. E. S. HOLMES, N. J.

[P. S.—Mr. E. S. Holmes bought all two years No. 2 grade of Gooseberries and two years No. 3 grade of Currants. This goes to show what kind of stock my No. 2 grade and No. 3 grade is.]

We received the plants all right and are well pleased with them. I never saw nicer Gooseberry and Currant plants. I enclose you another order for Grapes. I expect to send you a larger order in the spring.

CHAS. H. SCOTT, Iowa.

I received goods all right and am very much pleased with them. Neighbors say they never saw such nice plants before. I will want some more next season.

CHAS. P. SCHIELD, Ohio.

The nursery stock reached me to-day at noon. I am well pleased. Never have I had such a fair bill of goods shipped to me since I have been in the nursery business. Enclosed please find amount of your bill. R. W. CHAPMAN, Minn.

The Pearl Gooseberry, Eldorado Blackberry, Columbian Raspberry, etc., I purchased of you in the spring of 1896, have all done fine. The Columbian and Loudon Raspberries, I never saw nicer canes and berries in my life. They seem to be at home here in this soil and climate; also the Eldorado Blackberry. Please quote me price on 500 Columbian Raspberries for spring.

J. H. CHAMBERLIN, Ill.

I received the plants to-day, they being about 10 days on the road, but were in good order and fine plants in every way. Much obliged for the same and free packing. B. SNYDER, N. Y.

Enclosed find my order for fall. All the plants you shipped me last fall and this spring are all growing well. I am well pleased.

J. TAVERNER, Iowa.

McKinley

Early TWENTIETH CENTURY *Grape.*

IT is with intense satisfaction that we can at last introduce a New Early White Grape, of the Niagara type; which bids fair to add millions to the wealth of the state and Nation, and which will be hailed with delight by fruit growers, dealers and consumers, throughout the World.

McKinley Early Grape.

CONTINUED.

FOR many years Mr. Young has labored to produce a large **EARLY WHITE GRAPE** as large as the Niagara and productive, strong grower, and robust foilage. It is a cross between a Niagara and Moore's Early. It was originated near where the Niagara Grape originated. **It is fully ten days earlier side by side. Bunches very large and compact, very sweet, with no acid around the seeds and no puckery taste in the skin. It is the coming Early Grape for Market.**

Just think of it, a Grape ten days earlier than the Niagara Grape, about the same size and a compact bunch and as strong a grower.

MR. YOUNG has tested it in everyway sufficient to warrant its introduction and we are upheld in our estimate of its great value by all Fruit Growers who have seen it in bearing in Mr. Young's Vineyard. And at this writing and even before we had any plants to offer, we have received hundreds of letters asking prices of Vines.

The bunches are very large, usually shouldered. Compact and handsome. Berries large, nearly round, skin thin, green at first and turning to yellow when fully ripe. But very tenacious bearing handling and shipping.

It has very remarkable keeping qualities for an Early Grape, and hang on the Vines sound and perfect for six weeks or more after ripening, with no tendency to shell off or fall from the stems. As good a shipper as any other American Grape.

Mr. Frank L. Young, Niagara Co., N. Y., says:

"I planted the seed of this Grape in 1891, it is a cross between a Niagara and Moore's Early, it ripens ten days earlier than the Niagara. Vine vigorous, healthy, productive, foilage thick and leathery. Bunches medium, uniform, compact, skin thin, green at first and turning to yellow when fully ripe. It differs from all other Grapes, the pulp has no acid and parting easily from its few seeds."

In offering this remarkable Early Grape we guarantee the MCKINLEY EARLY to be as strong a grower as the Niagara and fully ten days earlier, and the richest flavor of any Grape ever put on the market. A strong vigorous grower, thick heavy foilage and perfect self fertilizing blossom.

We own all the stock of this wonderful New Grape:—The **MCKINLEY EARLY**. We bought the original Vine, and what plants there was for several **Hundred Dollars**.

Remember we have not given any one the right to sell this New Grape, and no Vines can be obtained elsewhere.

We will offer a limited number of one year Vines to the public this spring for the first time.

But we will not sell to any one party over two Vines. No matter what you offer us for more.

One year Vines at \$1.00 each by mail.

ALLEN L. WOOD, Introducer,

ROCHESTER, N. Y.

GRAPES.

There is scarcely a yard so small, either in country or city, that room for one to a dozen or more grapevines cannot be found. They do admirably trained up to the side of any building, or along the garden fences, occupying but little room and furnishing an abundance of the healthiest of fruit.

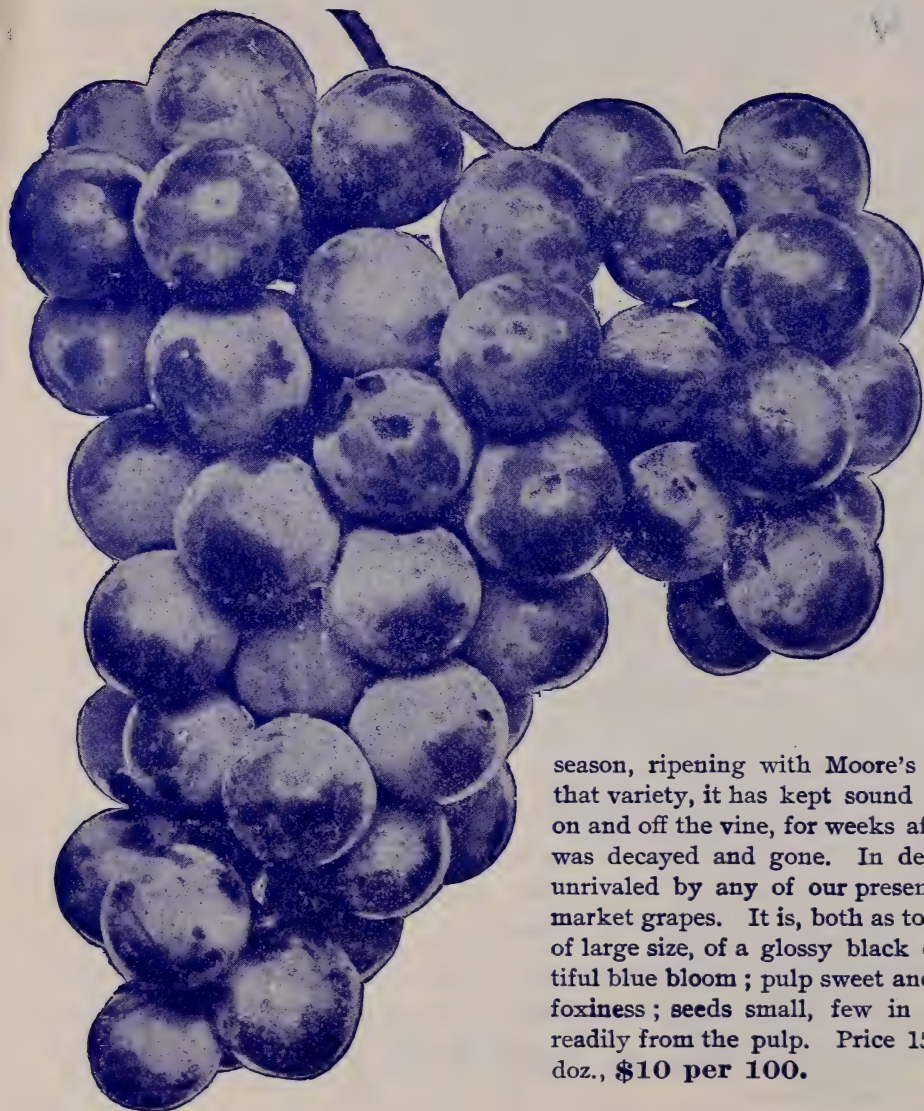

Our stock of two year Grapevines was never finer, and we can quote you a very low rate on any variety by the thousand.

Campbell's Early.

Its strong, hardy, vigorous growth; thick, heavy, perfectly healthy foliage; very early ripening and its abundant bearing of large and handsome clusters of excellent quality, combined with the most remarkable keeping and shipping qualities form a combination unequalled by no other grape. Its period of full maturity is from the middle to the last of August, according to the

season, ripening with Moore's Early, but unlike that variety, it has kept sound and perfect, both on and off the vine, for weeks after Moore's Early was decayed and gone. In dessert quality it is unrivaled by any of our present list of first early market grapes. It is, both as to cluster and berry, of large size, of a glossy black color, with a beautiful blue bloom; pulp sweet and juicy; free from foxiness; seeds small, few in number and part readily from the pulp. Price 15c. each, \$1.50 per doz., \$10 per 100.

Nectar.—Has more good qualities for the home garden than any other variety we know, of recent introduction. Being so remarkably free from mildew and rot, it is not easily effected by unfavorable climatic conditions. It ripens with Moore's Early, and can be left hanging to the vine till frozen without its quality being the least impaired—in fact improves every day. A good strong grower and large annual cropper. The fruit is black, with heavy blue bloom; quality the very best; pulp tender and skin tough, and will hang a long time after gathering without dropping from the bunch. We feel certain there is no variety that, in all sections of the country, will give as good satisfaction. Price 15c. each, \$1.50 per doz., \$10 per 100.

GRAPES—Continued.

Agawam.—(Rogers' No. 15.) Berries very large, with thick skin, pulp soft, sweet and sprightly, very vigorous, ripens early. Price 10c. each, 75c. per doz., **\$3.50 per 100.**

Brighton.—Red. Perhaps the best red grape in cultivation. Bunch large and compact; a strong grower and very productive; quality good. Price 10c. each, 85c. per doz., **\$4.50 per 100.**

Catawba.—Berries large, round; dark copper color, with sweet, rich, musky flavor. Requires a long season, good keeper. Price 10c. each, 75c. per doz., **\$3.50 per 100.**

Concord —A large, purplish black grape, ripening about the middle of September; vines remarkably vigorous and free from disease; the standard for productiveness and hardiness all over the country. Price 8c. each, 60c. per doz., **\$3 per 100.**

Colerain.—Color light green with delicate whitish bloom; size medium; ripens early and hangs well on the bunch; a good grower and abundant bearer; skin thin and tender. Price 12c. each, \$1 per doz., **\$5 per 100.**

Clinton.—Bunches small and compact; berries round, black, pulpy, juicy, of medium quality; valuable for wine and culinary purposes. Price 8c. each, 60c. per doz., **\$3 per 100.**

Delaware.—Red. A grape of finest flavor. Bunch and berry small and compact; sweet, thin skin; slow grower, and must have good soil and careful handling to get best results. Price 10c. each, 75c. per doz., **\$3.50 per 100.**

Dutchess.—Pale greenish yellow, berries medium; flesh tender, juicy, sweet, spicy. Ripens soon after Concord. Price 12c. each, \$1 per dozen, **\$5 per 100.**

Diana.—Red. Ripens soon after Concord; bunches medium and compact, good grower. Price 10c. each, 75c. per doz., **\$3.50 per 100.**

Elvira.—White. Bunch compact, medium size, good grower, used principally for wine. Price 10c. each, 75c. per doz., **\$3.50 per 100.**

Early Victor.—Black. An early black grape, ripening a week ahead of Concord. A good grower; berry small; bunch very compact; valuable for market or home use. Price 10c. each, 75c. per doz.

Etta.—White. Seedling of Elvira, with large berries, firmer skin, and superior quality; hardy and productive. Price 12c. each, \$1 per doz., **\$5 per 100.**

MOORE'S EARLY.

Eumelan.—Bunch good size, generally compact, shouldered; berry medium; flesh tender, sweet; quality excellent; vine moderately vigorous; ripens just after the Hartford. One of the best table grapes. Price 12c. each, \$1 per doz., **\$5 per 100.**

Geneva.—Yellow. Bunches medium, berries large, good quality. Price 12c. each, \$1 per doz., **\$5 per 100.**

Hayes.—A seedling of the Concord, originating in Massachusetts, and pronounced by the Massachusetts Horticultural Society the best eating White Grape ever shown; ripens early in September. Bunch large, skin thin, berry juicy and very sweet. Vine a strong, rampant grower, and partakes of the ruggedness of its parent; altogether a very desirable variety and well worth the attention of Grape growers. Price 12c. each, \$1 per doz., **\$5 per 100.**

GRAPES—Continued.

Isabella.—Black. An old, well-known sort ; large size ; dark purple ; sweet and rich, with a slight musky aroma. Beginning of September. Price 10c. each, 75c. per doz., \$3 per 100.

Jefferson.—Red. Extra large, fine quality, large and handsome bunch, medium size berries ; ripens with Catawba. Price 12c. each, \$1 per doz., \$5 per 100.

Lady.—Concord seedling ; berries large, light greenish yellow ; thin skin, pulp tender, sweet and rich ; vigorous and productive ; ripens early. Price 10c. each, 85c. per doz., \$4 per 100.

Lindley.—(Rogers' No. 9.) Bunch medium ; color a rich shade of red ; flesh tender, sweet, with a rich aromatic flavor. Price 10c. each, 85c. per doz., \$4 per 100.

Merrimac.—(Rogers' No. 19.) Large berry, jet black, fine quality. One of the best of Rogers' grapes. Price 12c. each, \$1 per doz.

Moyer.—A small early red grape, very hardy ; an excellent shipper ; juicy, sweet and tender to the center. Price 10c. each, 85c. per doz., \$4 per 100.

Diamond.—The leading early white grape, ripening before Moore's Early. White with rich yellow tinge ; juicy, few seeds, almost free from pulp, excellent quality ; above medium size, adheres firmly to stem. Vine like Concord in growth, hardiness and foliage. Fine variety for both market and home garden. Price 10c. each, 85c. per doz., \$4 per 100.

Moore's Early.—Bunch large, berry large, round, with heavy blue bloom, vine exceedingly hardy. Its earliness makes it desirable for an early market ; its hardiness particularly adapts it to Canada and Northern portions of the United States ; succeeds admirably in the South. Price 10c. each, 85c. per doz., \$4 per 100.

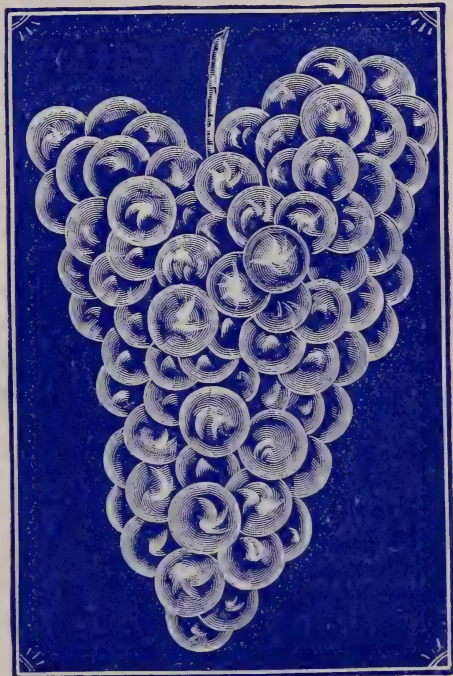

Niagara.—Occupies the same position among the white varieties as Concord among the black ; the leading profitable market sort. Bunch and berries large, greenish white changing to a pale yellow when fully ripe. Skin thin, but tough ; quality much like Concord. Price 10c. each, 85c. per doz., \$4 per 100.

Pocklington.—Or "Golden Pocklington," retains its popularity, and will probably take its place as a valuable standard Grape, being one of the largest and most showy white Grapes of the Concord type yet introduced. Price 10c. each, 85c. per doz., \$4 per 100.

Salem.—(Rogers' No. 53.) A splendid coppery red grape, ripening with Concord ; delicate flavor, sweet, tender and juicy. One of the very best table grapes. Price 10c. each, 85c. per doz., \$4 per 100.

Telegraph.—Black. Ripens early, bunch about medium, very compact and extremely attractive. Berry medium, very vigorous, healthy, hardy and productive. Price 12c. each, \$1 per doz.

Ulster.—Vigorous, good foliage, very productive, clusters medium to small, compact ; berries good size, dull copper color, a good shipper and keeper ; quality excellent ; ripens early. Price 12c. each, \$1 per doz., \$5 per 100.

NIAGARA.

GRAPES—Continued.

Vergennes.—Very productive, clusters large, berries large, holding firmly to the stem, color light amber, flavor rich and delicious, flesh meaty and tender. Ripens early, and is an excellent late keeper. Price 10c. each, 75c. per doz., **\$3 per 100.**

Wilder.—(Rogers' No. 4.) Bunch and berry very large, round, flesh tolerably tender, sprightly, sweet and agreeable. Price 12c. each, \$1 per doz., **\$5 per 100.**

Worden.—A seedling of Concord. Handsome, early, black, healthy, vigorous and productive, with large, longer bunches; better in quality, and 10 days earlier than its parent. Price 10c. each, 75c. per doz., **\$3.50 per 100.**

Wyoming.—Red. A popular market sort. Berry small, quality good; very productive and hardy, resembling Delaware somewhat; valuable for home use or market. Price 10c. each, 75c. per doz., **\$3.50 per 100.**

NOTE.—If you wish them sent by mail, add 12 cents per dozen, 40 cents per 50.
6 at dozen rates, 50 at 100 rates, 500 at 1000 rates.

GARDEN ROOTS.

Rhubarb.—(Myatt's Linnaeus.) Early, tender and very large; known as the sweetest of pie-plants. Price 10c. each, 75c. per doz., **\$3 per 100.**

Horse Radish.—Price, roots, 25c. per doz., \$1 per 100, **\$5 per 1000.**

FRUIT TREES AND ROSES.

We have received hundreds of letters from our customers every year asking us if we could not get them Fruit Trees, Roses, etc.

We have just made arrangement with one of Rochester's largest Wholesale Fruit Tree Nurseries to furnish us Fruit Trees for our customers for the Fall of 1901 and Spring of 1902.

These Trees are as good, if not better than any grown in any other part of the United States. All goods ordered from this list of Trees must be sent by express or freight, customers paying charges on receipt of goods. All large orders should be sent by freight, as charges are so much less, and our perfect packing admits a long journey without injury to the Trees.

APPLE TREES.

First Class, 25c. each, \$2.50 per doz., \$15. per 100.

Summer Varieties—Early Harvest, Red Astrachan, Yellow Transparent, Early Strawberry, Sweet Bough.

Read What Nurserymen and Fruit Growers Say.

A Few Testimonials from Shipments.

I received the plants you sent me this noon in perfect condition. They are certainly the strongest plants I ever received from any Eastern firm, and such fibrous roots, it did me good to look at them. If they do not make a fine growth it surely will not be your fault.

IRA W. ADAMS, California.

Your plants at hand. I have been buying all kinds of plants for the last fifteen years. I must say that yours were better than the best I have ever bought in fifteen years. I will order from you in the spring, as I think it would be too late now for fall planting.

J. TAVEMER, Iowa.

The 21,500 Gooseberry and Currants bought of you this spring are all doing finely; not over 200 lost in the entire lot.

E. S. HOLMES, N. J.

[P. S.—Mr. E. S. Holmes bought all 2 years No. 2 grade of Gooseberries and 2 years No. 3 grade of Currants. This goes to show what kind of stock my No. 2 grade and No. 3 grade is.]

The 3,100 Gregg and Palmer's Raspberry plants you sent me this spring were the best plants I think I ever saw. I have sold a great many plants during the past twelve years. If you furnish plants like those mentioned above I will order what plants I need from you hereafter.

W. P. M. KUNKLE, (Dealer), Pa.

Received package from you by American Express. Thanks for your promptness. It is all O. K. and complete.

GEO. MONTILLON, N. Y.

I was somewhat astonished when I received your letter stating that you had filled and sent my order the next day after receiving it. This is something very unusual for any nurserymen to do, and I wish to express my sincere thanks, not only for this extreme promptness, but for the finely rooted plants which came this long journey in good condition.

ROBT. A. NEWTON, Oregon.

Some time ago I sent to you for some Currants and Gooseberries, and I find I will need some more. Those you sent were dandies, as fine as any I have ever received, and I have ordered more or less plants annually for many years.

S. A. PERDEN, Kan.

Your Pearl and Red Jacket Gooseberries you sent me were fine, and I shall not lose one plant, I think.

H. E. MOON, Ind.

Inclosed please find draft for Vines, Plants, etc. The Grape Vines and Gooseberry Plants were splendid. Please accept thanks for prompt attention in filling my order. I will try hereafter to give you a portion of my trade.

I. N. TRUMP, Ind.

The roots you sent me were received in good time and in good condition.

I. H. FOSTER, N. Y.

The 100 Red Jacket Gooseberries that I purchased from you were received in extra fine condition and are, at this writing, making healthy, vigorous growth.

M. B. WHITING, Me.

I received the plants in perfect order on the 23d of March.

W. A. SELTZER, Pa.

Received the plants yesterday. Thanks. They are all right.

LAWRENCE BROS., N. J.

Enclosed please find Post Office Order for full payment of my account. The plants came all right.

W. W. CRAFT, N. C.

The plants I ordered of you were received all right and in good condition. I am well pleased with all. I think you will do well. Thanks for promptness.

F. STRICKLAND, Ga.

Your stock of Raspberries, etc., received. Will say they are as good as I have ever purchased. Will send you another order in the spring.

G. W. POOL, N. Y.

Stock received this A. M. Thanks for nice plants and prompt shipment.

A. C. PREBLE, Ind.

Goods received O. K. Never in all my life saw finer plants. I hope to do a big trade with your plants in the spring.

J. V. PEEK, N. Y.

The stock received from you to-day was all I could ask, and as good as anyone wants. Thanks to you for the same.

H. H. HARNISH, Pa.

I am well pleased with the extra fine plants received from you. It gave me pleasure to recommend you to anyone who wished anything in your line. The Loudons set out late in the fall are all alive and are stocky plants.

H. M. LEROY, N. Y.

The Gooseberries and Currants came in good condition. Hope they will prove a success here in our valley.

E. W. DOWNER & SON, Col.

My entire order for Shaffers Col. is for 3,200; so you will know what to ship. Other stock arrived all O. K. Very satisfactory.

A. B. EAKER, Iowa.

I received the Dewberry plants to-day by express all O. K. They are in fine shape. Please accept thanks for the same.

E. D. STREB, Ohio.

Plants arrived to-day in good order; the best plants I ever saw. Thanks for promptness.

C. H. WILLIAMSON, Mass.

The box of plants came yesterday and I opened it to-day. The stock was good and in good shape.

B. H. BOWER, Utah.

I received Strawberry plants O. K. to-day. They were exceedingly fine. The best I ever saw. They were satisfactory in every way. I am very grateful to you for the manner you used me. I will place another order with you next spring.

E. J. DAKIN, Me.

Plants arrived in good order. Will send you another order in a few days.

DANIEL PERRY, N. Y.

Plants received in good condition; am much pleased with them. Thanks for extra plants and promptness in filling order.

J. H. RICHARDSON, N. J.

Mayberry and Columbian Raspberry plants at hand, and they are very fine, especially the Columbian, which are the largest I ever handled.

L. ROESCH, N. Y.

I received the plants you sent me on the 9th inst. I was delighted to find them in such a fine condition. I am well satisfied and hope I shall be able to do much better in the future. Thanks for your promptness.

J. K. BOYER, Pa.

The Black Cap Tips you sent me were in good order; every one grew and now are nice large bushes.

M. LADD, Vt.

The plants came in good condition, for which many thanks.

J. W. CRENSHAW, Ky.

Shipment of Gooseberries, Currants and Grape Vines I received in excellent shape and the grade all O. K.
J. H. BRADLEY, Ill.

I received the plants to-day and I thank you very much for the way they were packed and also the promptness with which my order was filled. If I need any more plants I shall surely send to you for them.
ALBERT WEBER, N. J.

Enclosed find draft for amount due. Your stock received in good condition and open to please.

Northeastern Iowa Horticultural Society.

G. A. IVINS, Iowa.

I will write to you about the plants I received from you this spring, and will say they were very good, fresh stock, well packed and gave good satisfaction to my customers.

S. H. EATON, Me.

I have received from you the small fruit plants recently ordered, and am very much pleased with them; they are certainly very fine plants.
H. A. HAYWARD, N. C.

I received the plants in good condition and am well pleased with them. Thanking you for your promptness.

F. J. CARL, Pa.

I received the plants to-day, they being about 10 days on the road, but were in good order and fine plants in every way. Much obliged for the same and free packing.
B. SNYDER, N. Y.

Enclosed find my order for fall. All the plants you shipped me last fall and this spring are all growing well. I am well pleased.

J. TAVERNER, Iowa.

The Gooseberries, Blackberries and Currants you sent to Pajac Point Farm, Rhode Island, arrived promptly and in good condition. It was a surprise and a pleasure to find such well-rooted plants and so carefully dug. Your motto is, evidently, "Room at the Top." Please accept our thanks.

W. B. WELLING,

Wall Street, New York.

Enclosed please find check. Accept our thanks for the fine stock which you sent us.

MOREY & SON, N. Y.

Stock of plants and vines received and in good condition; just as fresh as when dug. I must say they are the largest and best for their age, and the money or price paid, grown in the world. It is a pleasure to do business with an honest man, and especially one who tries to live and let live. I thank you for extra promptness.

D. W. GILLETTE, Pa.

Received Strawberry plants. They are in fine shape. Many thanks to you for the promptness you have shown.

R. A. TAMBLINGSON, Wis.

I got the plants Friday, they were in fine condition, and when I got them home I set them out. They are mighty fine plants.

W. C. MARVILLE, Mass.

Vines received O. K. Thanks. They are very fine. I have two acres I am thinking of putting in grapes next fall. May give you a better order then.

W. S. GRAY, Ga.

Enclosed find draft for Currants and Gooseberries. Stock was fine.

Iowa State Horticultural Society.

W. O. WILLARD, Iowa.

Stock at hand; good grade and in good shape. Thanks.

WICHITA NURSERY ASS'N, Kan.

Stock arrived in due time and in fine condition. I am well pleased with it. I expect to get my whole supply of you. Wishing you success.

J. W. GRIESEMER, Ill.

Plants received in good shape for which accept thanks.

B. F. WHITE, N. C.

Box of plants received all right, everything all O. K. If the stock you sent me is a fair sample of what you grow I guess we may do considerable business together in the future.

HITCHCOCK'S NURSERY, Mass.

Plants arrived in fine condition, all O. K. Please accept thanks also for extras.

C. E. WOODRUFF, Ill.

The nursery stock reached me to-day at noon. I am well pleased. Never have I had such a fair bill of goods shipped to me since I have been in the nursery business. Enclosed please find amount of your bill.

R. W. CHAPMAN, Minn.

Enclosed find draft. Stock was fine and delivered in good shape.

L. H. SMITH, Mo.

Enclosed please find draft in full. We are pleased with your stock.

J. N. BARTELS & CO., Colo.

I herewith enclose draft for 500 Pearl Gooseberries. They were very satisfactory.

U. L. MOORE, Nebr.

The plants you shipped me have arrived in good condition and are very fine. The best I have ever handled.

DARCY BROWN, N. J.

Plants received in good condition. I am pleased with them. Thanks for extra plants, and for promptness in filling order.

D. S. EATON, Ohio.

I received the plants in good condition and they were fine ones. Thanking you for your promptness.

F. J. CARL, Pa.

Stock received in first-class condition. Have bought or seen none better. Thanks for treating us right. Please find enclosed draft.

PECK & REMINGTON, Iowa.

Raspberries, Currants, Gooseberries and Grape Vines came in good condition. They are all making a fine growth. I expect to send you another order this fall. Be sure and send me your price list.

CHARLES H. SCOTT, Iowa.

I received goods all right and am very much pleased with them. Neighbors say they never saw such nice plants before. I will want some more next season.

CHARLES P. SCHIELD, Ohio.

I enclose check for amount of bill. The plants came to hand in fine condition, and are a very nice lot. I thank you for the favor and also for the extra plants.

ELI D. SULCTEFFE, N. Y.

Enclosed please find draft for plants. They were good and satisfactory. Will try and do better another year if all is well.

A. R. CAMPBELL, Col.

Stock arrived all O. K. The finest I ever saw.

JOHN N. WARN, Mich.

Enclosed please find money order for Currant bushes. They were eight days on the way and arrived uninjured. I did not expect they would be worth anything, but I am well pleased with them. Will remember you in the future.

F. E. GOEWEE, N. Y.

Order of Shrubs came to hand to-day. Were well packed and in fine condition when they arrived.

J. N. BARTELS & CO.

The vines, etc., arrived in good condition. Well pleased with the stock.

GEO. F. GREENAWALT, Pa.

Goods comes duly and as usual are up to your high standard. We will commence to deliver in a few days.

L. H. SMITH, Mo.

Have received nursery stock order of you and the same was in good condition and all right.

V. B. CONGDON, N. Y.

Plants received and set out. Your plants are immense, especially the Grapes and Gooseberries. I may set some more Gooseberries out, if so, I will write you. D. W. GILLETTE, Pa.

Received the box of stock all O. K., and am well pleased with it. I will give you an order next year. I. D. WEBSTER, N. Y.

The 100 Pearl Gooseberries came in fine shape and certainly No. 1 in every respect. Many thanks. Will remember you again. S. T. KENYON, Ohio.

Inclose money order for \$20.54. Everything was very satisfactory and pleasing. I will want to deal in the future with you. A. L. HOAG, N. Y.

I am well satisfied with the plants you sent me. I came near ordering more of them, but the party wanted to wait till fall, as it was late in the season. Will try to give you a larger order next season. A. R. CAMPBELL, Col.

Strawberries arrived in excellent condition, and every one a good plant. J. R. WALKER, Mich.

We received the plants in good condition, and they were satisfactory. Thanking you for the promptness, we remain, R. CARL & SON, Pa.

The 100 Shaffers Col. Raspberries you sent me last spring are growing nicely, and when in need of anything else will send to you. CHAS. E. RASHBACK, N. Y.

Enclosed find draft for \$34.05 in payment for your bill rendered. Goods were fine. L. H. SMITH, Mo.

I received nursery stock as ordered. It was in good condition. E. A. RANDALL, Mass.

Orders for Pearl Gooseberry received. Thanks for the extra number. All good roots and in very good condition. Our State Authorities have recommended the Pearl Gooseberry the best all around gooseberry. S. E. EVANS, Cal.

Enclosed find draft for the amount of your bill in full. Your plants gave entire satisfaction in every way, and a number of people that saw them wish to send orders through me next spring for plants. F. H. BANGS, Me.

Enclosed you will find draft for the amount of bill. Plants appear to be fine. M. H. CLOSE, N. J.

The plants came all right. Much obliged. I will send you money order for the full amount. W. P. M. KUNKLE, Pa.

Enclosed please find check for the amount of your bill, \$37.43. Your stock has proved very satisfactory so far. It gives me pleasure to pay a bill when the stock comes up to what I expect. J. C. HOLMES, Pa.

The stock bought of you this spring reached me all O. K. It was fine, and is doing splendid. Another spring I shall send you a much larger order. I wish I had sent for five times as much, and I would have, if I had known how nice your stock was. F. J. M. WONSER, Iowa.

Enclosed find draft to balance account. The plants were received in good condition. GEO. B. MANTER, Wis.

The Pearl Gooseberry, Eldorado Blackberry, Columbian Raspberry, etc., I purchased of you in the spring of 1896, have all done fine. The Columbian and Loudon Raspberries, I never saw nicer canes and berries in my life. They seem to be at home here in this soil and climate; also the Eldorado Blackberry. Please quote me price on 500 Columbian Raspberries for spring. J. H. CHAMBERLIN, Ill.

The vines you sent me were very nice. If I had bought all my plants from you last spring I would be money ahead. F. DECKER, N. Y.

The stock came in fine condition and it was the best I ever handled. F. O. WILLIAMS, (Dealer), N. Y.

The 500 Loudon Raspberry plants have arrived in good order and are very satisfactory. E. G. PACKARD, Del.

Enclosed find check to balance my account. The plants arrived in good condition and are very fine. The best I have ever had. JAMES H. HOVER, N. Y.

I write to tell you that the 24 plants of Pearl Gooseberries that you sent me two years ago last spring to be planted in our Experimental Grounds, bore this year 41 quarts of fruit from 20 plants, as four of them had died. I have come to the conclusion that it is far superior to the Downing.

Experiment Station of Iowa State Horticultural Society. M. J. WRAGG.

Enclosed find draft in payment for stock this fall. Shall want more in spring of '98. Stock was fine. A. H. CHADBOURNE & CO., Mass.

The plants have been received. They are extra good plants and in fine shape, for which accept thanks. WM. BROWN, Kas.

Enclosed find draft in full for bill of Oct. 2nd. Everything was satisfactory and very nice, and I shall give you my orders in future. F. A. BASCOM, Pa.

The box of Currants, Gooseberries and Raspberries at hand, are splendid and entirely satisfactory. You may count on me for more orders next fall. L. F. TICKNORS, Ill.

Please send me at once 100 Gregg and 100 Kansas Raspberry plants, by freight. The plants you shipped me came in the finest condition. The Grapes were the finest I ever saw, all the rest in proportion. I have bought nursery stock all over the United States. A. G. LODGEWICK, Ind.

The stock arrived last Saturday all right, and in good condition. Plants look fine and I am pleased with them. GEO. W. COOK, N. Y.

The order for nursery stock arrived in good condition. I am much pleased with the plants; they are fine. I have them out and they are already budding. Thanks for the same. D. M. AVEY, Conn.

The stock you sent me some time ago came to hand promptly and in first-class condition. It is fine. The best I ever bought for the money, by odds. If I need anything in your line, I will be sure to send it to you again. I expect to need stock for fall trade. ALVIN H. HEIM, Ind.

Find inclosed draft to balance account for Snyder Blackberries. They were very fine. T. H. TIFFANY, Pa.

Please send me by express, just as soon as possible, 1,500 Gregg, 1,500 Ohio Raspberries. The stock you have sent me has been first-class and all right in every respect. T. A. GUERNSEY, N. Y.

Your 300 Kansas plants received. They were very fine. Would rather have 300 such plants than a thousand poor ones. Thanks for your prompt shipment; also for those fine plants. A. ABBOTT, Conn.

We received the plants all right and are well pleased with them. I never saw nicer Gooseberry and Currant plants. I enclose you another order for Grapes. I expect to send you a larger order in the spring. CHARLES H. SCOTT, Iowa.

The early Wilson Blackberry plants came in fine condition. They are the first lot of Wilson Plants we ever received that were just what they should be; have been hunting ten years for just such stock. Please accept our thanks.

J. BLACKMAN & SON, Iowa.

I cannot refrain from mentioning to you that the Currants and Gooseberry plants received from you last spring were the finest I ever received from any nursery. You surely will hold all of your customers by sending such plants

LOUIS A. HEEYER, Ind.

Received stock in A No. 1 condition; am well pleased with them. Please accept thanks.

THE PEOPLE'S NURSERY CO., N. Y.

Received plants in good condition, they are fine. Am well pleased with same. Please accept thanks.

GEO. ELKO, Iowa.

Your nursery stock came in first-class condition; am well pleased with same. Please accept thanks.

Stock arrived in fine shape. I wish to thank you for the care you used in filling and packing my bill.

THE H. N. BROWN, Wis.

Your shipment of stock received to-day in good shape. Many thanks for your punctuality.

WILLIAM A. PHELPS, Mass.

Box came to hand all right. Stock in good order. Those Grape vines simply immense.

J. A. BARTELS & Co., Colo.

Received plants all in good condition. Very much pleased with them.

WALTER LEWIS, Mass.

Received plants all in good condition. They were the best plants I received this season and it is a pleasure to handle them in my retail trade as I have no loss and do not have to re-sort them.

HOMER D. BROWN, Ill.

I received the bushes I ordered from you in fine shape and think I shall want a larger order next season. I was well pleased with the way you used me.

FLETCHER J. FLINT, N. Y.

I find your stock very fine. Am well satisfied.

M. S. VANDERBURG, N. Y.

I received my order of Raspberry and Blackberry plants in good shape. Thanking you for your prompt attention to my order.

A. A. WRIGHT, Me.

The 1000 Berry plants received in fine shape for which please accept my thanks; also for getting out order so soon.

JOHN M. PULVER, N. Y.

Your order is so satisfactory that I shall have no hesitation in ordering again when wanting anything in your line.

R. W. WOODVILLE, Minn.

Out of the 2000 Currants (Fay's) I got from you I only lost 8 plants. I shall want at least 1000 more this fall.

GEORGE J. DEING, Colo.

The Gooseberries came all right. Thanks for your promptness.

C. E. OLDER, Minn.

My plants and vines came in fine condition and I wish to say they are the nicest plants I ever bought. Please accept my thanks.

C. A. FENTON, Mo.

I received Grapes in fine condition please accept thanks for your promptness.

JOHN J. DAVIS, Pa.

Plants arrived O. K. am more than pleased with them as they are larger than I expected for the money. Will recommend you to others.

R. J. ENGLISH, N. Y.

The Currant bushes I ordered of you, were received all right and in splendid condition. I am very much pleased with them and thank you for your promptness.

WALTER PARSONS, Pa.

The Currant bushes arrived on the 6th inst., and I was very much pleased with them. Accept my thanks for the extra bushes. I shall certainly call on you when I need any more stock.

SEYMORE WILSEY, N. Y.

Your promptness in filling my order for Berry plants was a great surprise to me, and they had the most and best roots of any I ever received from any source. Accept my thanks for same.

J. S. OGARBER, Ind.

The Blackberry Plants came through in fine shape. They are the best plants that I have seen and I have seen lots of Plants. I want to put out some more next fall. Will get all of our small fruit from you hereafter.

JOHN MORRIS, Colorado.

Received Concord Grape vines to-day. Am well pleased with its roots and the care you take in wrapping for mail.

R. A. STURDIVANT, Ill.

I received the Pearl Gooseberry plant, it is a very nice plant and in the best of order. Please accept my thanks for the same.

EVERETT E. LAFUSE, Ind.

The plants you sent are looking fine; am well pleased with your stock.

FRED DECKER, N. Y.

Accept my thanks for nice Rhubarb Roots and Gooseberry bushes, also Raspberries. You can look for a nice order this fall from me.

J. R. MORGAN, Ky.

The six Strawberry plants have been received for which please accept thanks. They are the finest plants I have received.

JOHN HENDERSON, Mo.

Your plants arrived all right, please accept thanks. I could not wish any better treatment. Everything was in good condition.

N. G. NOBLES, Ill.

The goods come duly. It is the same old, old story, when buying of you, all in perfect condition in every respect, it must be a satisfaction to send out such stock.

L. H. SMITH, Iowa.

We are well pleased with our stock we received from you and in the way in which it was packed.

J. W. JOHNSON & Co., Miss.

Raspberry plants received in good order. Please accept my thanks.

H. K. WANZER, N. Y.

We acknowledge receipt of yours of 22nd, enclosing check and thank you for your promptness. Had it not been so late we would have taken the second box as the stock is very fine, in fact the best we ever saw, and hope to have a good order for you for fall.

THE BROWN FAHERTY Co., Mo.

Stock received in first-class condition, have never bought nor seen better than. Thanks for treating us right.

PECK & REMINGTON.

The plants received all in good order. The plants were as fine as any I ever saw, and I have handled a good many varieties.
